BABY BLOCKS DINO

T-REX

DO YOU KNOW THAT...? CZY WIESZ, ŻE...?

TYRANNOSAURUS REX is one of the largest land predators existing on the Earth so far. It could grow up to 12 meters long, up to 6 meters high and weigh up to 8 tons - it was longer than a bus and heavier than an elephant. T-Rex ate meat that he hunted or gained himself, probably hunting like today's tigers and lions. He had a large head and jaws with strong teeth, a long heavy tail and small arms. T-Rex stood on two huge hind legs, each ending with three claws, reminiscent of a bird's leg, but much larger.

TYRANOZAUR (Tyrannosaurus rex) to jeden z największych drapieżników lądowych dotychczas istniejących na ziemi. Mógł dorastać do 12 metrów długości, do 6 metrów wysokości i ważyć do 8 ton - był dłuższy niż autobus i cięższy od słonia. T-Rex jadł mięso, które sam upolował lub zdobył prawdopodobnie polując tak jak dzisiejsze tygrysy i lwy. Miał wielką głowę i szczęki z mocnymi zębami, długi ciężki ogon i małe ramiona. T-Rex stał na dwóch potężnych tylnych nogach, z których każda kończyła się trzema pazurami, przypominających nogi ptaka, tylko o wiele, wiele większych.

HAVE FUN!
